

Hi, Lincoln voters, I'm Vin Cannistraro, candidate for selectman, and I'm recording this message to ask for your vote this Monday, Currently the major issues facing this town are directly related to capital projects, and this is where the exp and fresh perspective I have to bring to the table could be of value to Lincoln. I have over 25 years of hands-on and executive experience in the construction industry at the business ownership level. I've worked on projects from Gillette Stadium to the Boston Convention Center and everything in between. I also have several years of postgraduate work in all major areas of executive business management. I can put my expertise to work for Lincoln and know that with your support, I can help us become an even greater community than we are today. In our small town, every single vote makes a difference,so please show up on Monday, March 31, and if my message has resonated you in some way, I would certainly appreciate your vote. Thank you for listening.
